

Pecan Stream Sauvignon Blanc 2022

Cultivars:	100% Sauvignon Blanc
Vineyard:	Western Cape
Aging:	Stainless Steel
Quantity:	14,000 cases
Wine Analysis:	Alc 13.45%
	TA 5.72 g/L
	RS 1.6 g/L
	pH 3.3

TASTING NOTE

A Sauvignon blanc representing the more tropical style. The wine is shaped around fresh fruit aromas such as granadilla (Elgin), pear and guava (Stellenbosch). The palate expresses great purity in fruit, and a softer acidity. A lovely wine to accompany any summer dish.

VINEYARD

From vineyards in the Elgin region with also a portion of Stellenbosch fruit.

VINTAGE REVIEW

We experienced good winter rains, with a great optimism for getting back to normality after the drought. The season started well with favourable growing conditions which produced good crop. The wines are showing very well with good acidities and wonderful fruit expression from the moderate to cool ripening period. Mid ripening season rain did add a little twist to the vintage but not affecting the result of quality wines being made.
